Page 3, Q17. Are there any specific NCDA materials you wish to provide feedback on?

1	The webinars are simply not something I can participate in as a professional student on the West Coast of the US. Changing it up so it's not always on CET would be much appreciated and might help with participation from different regions.	Jan 6, 2012 12:27 PM
2	Could have been good to have materials for the press and the public	Jan 6, 2012 9:39 AM
3	I assume questions 14-16 apply to me personally. Others in my organization did use the templates.	Jan 5, 2012 7:18 AM
4	We found the produced documents very helpful and used them very much for our advocacy work. Also, the analysis provided by the NCDA in the run-up to the UN Summit was very helpful indeed and gave much further insight into the present state-of-affairs.	Jan 4, 2012 3:54 AM
5	the NCDA outcomes document (if this was the list of outcomes proposed) was much too long. there was no way to advocate for that many outcomes	Jan 3, 2012 3:54 PM
6	We found that the messages received through the email alerts were conceptually pretty complex and hard to pass on to our constituents in LMCI. It might have been more helpful if messaging were a little more tangible for patient groups without as much advocacy experience.	Jan 3, 2012 3:06 PM
7	Tobacco control materials were particularly useful and economic data especially with regards to low and middle income countries very timely and useful as well as Lancet paper series and Wold economic forum data.	Jan 3, 2012 2:06 AM
8	We would like to provide us about the : Care of cancer patients Awareness of cancer Exchange of expertise and experiences	Jan 3, 2012 12:00 AM
9	no	Jan 2, 2012 11:26 AM
10	As a European organization with a global outreach, we cannot send out the same media release that the NCD Alliance has sent out to our contacts, which can overlap. What would be useful is to encourage organizations to send out press releases in the form of statements that support the NCD Alliance releases. To coordinate this, dates and texts of NCD Alliance releases need to be distributed or announced well in advance. Suggestions on what topics to comment on or how to do so would make composing individual media releases that much easier.	Jan 2, 2012 9:10 AM
11	slide set was very useful	Jan 2, 2012 8:26 AM
12	The human rights paper - which looked at vulnerable groups - could also have included people with disabilities. pleased that the health systems paper included reference to rehab services.	Dec 29, 2011 7:31 AM

Page 3, Q17. Are there any specific NCDA materials you wish to provide feedback on?

13	alerts,summaries and analyses very helpful	Dec 28, 2011 7:18 AM
14	Printed Flip charts by local languages which helps local community to understand	Dec 26, 2011 11:16 PM
15	No	Dec 26, 2011 2:34 PM
16	NO	Dec 22, 2011 3:56 PM
17	Too many outcomes in the outcomes document	Dec 22, 2011 11:12 AM
18	The NCDA doe not engage with the language of health promotion and that limits the utility of your statements, advocacy, webinars and templates.	Dec 20, 2011 4:38 PM
19	I did not agree with much of the NCDa policy agenda, which understated the importance of prevention and lacked the requisite specificity and insistence on effective regulatory reforms to be effective.	Dec 20, 2011 8:46 AM
20	NO	Dec 20, 2011 7:11 AM
21	no	Dec 20, 2011 1:01 AM
22	Your materials, including talking points and updates on UN/WHO, activity were exceptional. You helped all the civil society organizations maximize their bandwidth and provided a global stage for NCDs. Thank you!	Dec 19, 2011 1:28 PM
23	not enough focus on physical activity, as a risk factor, relative to its importance in NCD prevention	Dec 19, 2011 12:41 PM

Page 3, Q19. Please suggest how the NCDA can better support your national advocacy efforts. Name at least three actions you think the NCDA could take to increase the need for action on NCDs in your country?

1	need more media exposure in Japan, as very few people even recognize the word "NCD", also helps to provide educational tools for health professionals how to educate public	Jan 9, 2012 9:46 PM
2	1) Support production of articles on NCDs in popular US media (NY Times, CNN, TIME Magazine) 2) Collaborate with existing US community organizers (e.g. Change.org) to launch petitions on NCDs directed at officials or institutions 3)	Jan 6, 2012 12:27 PM
3	Press and comms strategy internationally	Jan 6, 2012 9:39 AM
4	Identifying and reinforcing 'leaders' at national levels encouraging national chapter development Requesting NCDA national members to lead a National NCD Alliance.	Jan 5, 2012 10:34 AM
5	Convey who are the national delegates attending key UN and WHO as best you can so direct national advocacy can take place prior to meetings to assist member state forming their positions, questions and voting.	Jan 4, 2012 6:45 PM
6	1. Actively support the formation of national and sub-regional NCD alliances 2. Request a meeting with the President and/or Cabinet and invite the press to ask what is the country doing on NCD prevention, given that it affects most voters 3. Develop a monitoring system/watchdog role for the commitments the President/Minister made at the UNHLM and in other forums, eg., WHO regional committees and WHA	Jan 4, 2012 8:59 AM
7	NA as we do not have National advocacy efforts.	Jan 4, 2012 8:56 AM
8	Strengthen evidence and build networks	Jan 4, 2012 5:17 AM
9	1. Not just to focus so exclusively towards the 4 big diseases, but to be much more inclusive also in the production of papers, which we could use differently, if our disease area (osteoporosis) or - at least - musculo-skeletal diseases were actually mentioned. 2. This would have given us wider scope to promote the ails of the NCDA in a much better way towards our national (country-specific) member organisations. The focus on the 4 big disease groups prevented this. 3. Be in more regular contact with the CIG, so that the CIG is better informed about present activities, which can then be given further as information to our national societies. 4. However, to include or - at least - mention other disease groups apart from the big 4, seems to me one of the most important steps...	Jan 4, 2012 3:54 AM
10	Have a more holistic approach Being more global	Jan 4, 2012 12:52 AM
11	Advocay for Policy survey worldwide to assess impact and make recommendations	Jan 3, 2012 11:31 PM
12	we have a good national Chronic Diseases alliance	Jan 3, 2012 7:28 PM

Page 3, Q19. Please suggest how the NCDA can better support your national advocacy efforts. Name at least three actions you think the NCDA could take to increase the need for action on NCDs in your country?

13	increased media coverage refined list of asks more documentation of the costs and consequences of inaction	Jan 3, 2012 3:54 PM
14	we are acting globally	Jan 3, 2012 2:39 PM
15	Target individuals/groups to be responsible	Jan 3, 2012 12:06 PM
16	It would be most helpful to expand chronic disease from the 'big 4' to include all chronic diseases, which would engage additional global health concerns, which may not be as deadly yet are devastating to millions of people.	Jan 3, 2012 7:18 AM
17	Work with our country partners before approaching our government agencies, etc.. to ensure the right hand knows what the lefthand is doing.	Jan 3, 2012 7:04 AM
18	A Partnership approach with national healthcare societies; a more coordinated media outreach; using the webinar to truly bring together the key healthcare advocates.	Jan 3, 2012 6:08 AM
19	have regular face to face interactions with member groups,	Jan 3, 2012 4:26 AM
20	Better relationship with ALL stakeholders, including industry. Better communication around production of key literature. Overall objectives that rise above individual areas of disease etc.	Jan 3, 2012 3:04 AM
21	form and support NCD alliances at national level and european level lobby for clarity on public sector involvment a very dangerous area that some NCD alliance members seem very naive about Lobby EU institutions + WHO Euro to	Jan 3, 2012 2:06 AM
22	Our support center building in the early detection of breast cancer	Jan 3, 2012 12:00 AM
23	1, Support for advocacy for national action plans on NCDs 2. Develop, publish list of those that have plans and those that don't (WHO does this already, but dodgy methodology) 3. Let's get better data from all UN nations for comparison purposes - useful for domestic advocacy	Jan 2, 2012 3:34 PM
24	The NCDA should be directed by the different national associations who are members. There should be more democratic discussions and particularly face to face discussions with the elected boards of national NCDA groups. The webinars should be chaired by a member of a member of an elected board NOT paid staff of any of the organisations. For members who may not be IT proficient or have such a facility they are disadvantaged. The webinar exercise is primarily passive. It does not promote transparency of discussion. Submitted questions are selected by whoever chairs the session and that may be less objective than ideal.	Jan 2, 2012 1:00 PM
25	Translate background documents into French Sponsor/support regional advocacy workshops (West Africa) Provide case	Jan 2, 2012 12:59 PM

Page 3, Q19. Please suggest how the NCDA can better support your national advocacy efforts. Name at least three actions you think the NCDA could take to increase the need for action on NCDs in your country?

	studies/examples	
26	work with the organisations at the grass root level	Jan 2, 2012 11:26 AM
27	1. Work with NDC Alliance member societies to create national NCD Alliances and websites 2. Provide training of national NCD Alliance spokespersons on the issues, who to address and what to say (sending out information to our networks was not enough because people need more specific instructions, and adequate advance notice). 3. Provide dedicated staff to support national NCD Alliances and keep their advocacy efforts targeted and focused until they can continue independently.	Jan 2, 2012 9:10 AM
28	Getting more creative on effective policy interventions - jettisoning the 'us vs. them' approach to policy advocacy when other approaches have more promise.	Jan 2, 2012 8:23 AM
29	direct letters from NCDA to the Governmnet and Parliament; trainings for media; Advocacy Conference	Jan 2, 2012 8:07 AM
30	Maintain NCDA as global NGO in the future. Produce annual review on progress on NCD. Organise around NDG 2015	Dec 30, 2011 9:34 PM
31	Broaden scope from just the 4x4. Mental health issues especially are a major concern of many states and an NCD. Develop country/region specific info and culturally appropriate materials. Ensure advocacy focuses govts on morbidity as well as mortality and are not just looking at deaths.	Dec 29, 2011 7:31 AM
32	continue to update on WHO development of targets and monitoring continue to update on latest scientific findings continue to highlight conflicts of interest and the need to isolate the corporate sector from policy making	Dec 28, 2011 7:18 AM
33	1. Educational policy must be strengthened (Targeting children s food habits) 2. The Government should strengthened civil society organizations in the country	Dec 26, 2011 11:16 PM
34	N/A	Dec 26, 2011 2:34 PM
35	Specific goals for the region Specific timeframes A specific advocacy agenda	Dec 22, 2011 3:56 PM
36	Write the papers in others languages.	Dec 22, 2011 2:16 AM
37	Use the language of health promotion and talk about integrated action rather than silos of tobacco, heart, lung, diabetes, etc.	Dec 20, 2011 4:38 PM
38	I am frustrated that the indicators do not acknowledge current "low hanging fruit" in terms of NCD control, namely	Dec 20, 2011 9:45 AM

Page 3, Q19. Please suggest how the NCDA can better support your national advocacy efforts. Name at least three actions you think the NCDA could take to increase the need for action on NCDs in your country?

	vaccination against hepatitis B (liver cancer) and HPV (cervical and other cancers). These important interventions, one of which is very inexpensive, should not be ignored--it is something our countries can do right away, is very effective and does not depend on (difficult) behavior change.	
39	1. NCDA suffers from a fundamental conflict of interest which needs to be rectified (not just by routine, prominent disclosure, but by obtaining independent funding. 2. With conflicts fixed, it would need to allow genuine opportunities for input in their recommendations and approach to advocacy. 3. Sharing timely information about national government stances (rather than just requesting input from country NGOs); I learned some outrageous information about my government's conduct on the eve of the HLM through a journal article interview with NCDA staff.	Dec 20, 2011 8:46 AM
40	capacity building for NGOs to better advocate at national level; provide tools and manuals about how to advocate; promote contact among NGOs in order to join forces towards common strategies	Dec 20, 2011 8:27 AM
41	For one, in order to target the US Government, it would behoove the NCDA to include those of us who actively work with the US Government. To the best of my knowledge, almost no outreach by NCDA staff was made to those of us who are regularly in touch with decision makers in the US Government. Therefore, the NCDA advocacy efforts were generally inappropriate for the US Government, and could not be used by those of us doing advocacy here.	Dec 20, 2011 8:23 AM
42	Needed more adapting to local contexts. Also at a national level the member associations are used to discussing their disease specific problems and not NCDs overall.	Dec 20, 2011 7:49 AM
43	CAPACITY BUILDING. I.E.C. MATERIALS. HELP IN RESOURCE MOBILIZATION FOR LOW-MIDDLE INCOME COUNTRIES.	Dec 20, 2011 7:11 AM
44	National efforts seem to at times siloed among disease orgs or closed off to an inner club. The NCDA could more explicitly form mini-NCDA's in major target markets (US, Japan, EU) so that heart, diabetes, cancer etc. orgs in those markets are encouraged to work together in a transparent way, similar to how IDF, Union, UICC, etc. work on the global level. This was the major disconnect - no NCDA framework at the national level for getting NCD orgs working together.	Dec 20, 2011 6:03 AM
45	Not working nationally	Dec 20, 2011 3:58 AM
46	Give more focus on TB-Diabetes Provide/ensure small grant on advocacy activity on NCD Give more effort to policy advocacy	Dec 20, 2011 1:01 AM
47	1. Informing German press/tv agencies about the German NCD Alliance and contact persons could be helpful. We contacted the German journalists accredited to the UN Summit in New York prior to the Summit and offered informations, interviews from the Summit in New York etc. but there was no reaction. 2. Starting regional petitions online (e.g.	Dec 20, 2011 12:55 AM

Page 3, Q19. Please suggest how the NCDA can better support your national advocacy efforts. Name at least three actions you think the NCDA could take to increase the need for action on NCDs in your country?

	European region)	
48	More of the same 1) advance notice of influencing opportunities; 2) examples of policy asks;	Dec 20, 2011 12:40 AM
49	Produce country-specific policy briefings Engage with population wide interventions at the community level	Dec 20, 2011 12:28 AM
50	More concise documents please. If a letter is too long people will not read them. Short and to the point is more powerful than lengthy detailed letters and documents.	Dec 20, 2011 12:08 AM
51	Hard to tell but we have a national NCD Alliance which is doing that job to the best of its abilities. And there are country-specific partnership characteristics that foreign actors may not be very familiar with and which may be important when taking up important issues with the political and policy makers. Most of NCD A campaign material come in a one-size-fits-all format and that often require an adaptation to national realities.	Dec 19, 2011 11:44 PM
52	Now NCDA can take action plan to implement the UN summit outcomes globally, nationally and also build capacity of different NGOs to bring together on what would be the action plan for us.	Dec 19, 2011 11:01 PM
53	Identify specific people to deal with in government Support relevant NGOs to enhance advocacy campaigns Follow up on proposed activities	Dec 19, 2011 9:41 PM
54	The only suggestion I would have is that you ask each common interest group how the NCD Alliance can be of assistance to them. Also, a website to share documents and events would be much appreciated.	Dec 19, 2011 1:28 PM
55	advocate with donors	Dec 19, 2011 12:42 PM
56	provide funding, trainings	Dec 19, 2011 11:03 AM
57	1, 2, 3	Dec 14, 2011 5:18 AM

Page 3, Q20. Has the NCDA adequately consulted the following stakeholders in forming its priorities and positions?

1	Not sure the private sector should be part of policy making.	Jan 6, 2012 9:39 AM
2	Greater clarity is needed on what NCDA's relationship with the stakeholders is and should be, then it would be easy to define how it can better inform them and about what, and consider two-way communications	Jan 6, 2012 6:24 AM
3	Suggest there is a more clear structure on how experts on areas - such as physical activity can be engaged as the alliance forms its views and position. As a representative of PA it is not clear who has contact to give feedback and useful content to support. I recognize things were frantic around the summit.	Jan 4, 2012 6:45 PM
4	Concerns over neglected Chronic Diseases e.g. mental health, alcohol related.	Jan 4, 2012 8:56 AM
5	More regular emails, even if they are just short ones to inform about a recent development. Often, the emails sent are huge with a lot of information, which is at risk of getting lost in a busy working day.	Jan 4, 2012 3:54 AM
6	Use email, facebook and twitter tailor short precise, regular messages	Jan 3, 2012 11:31 PM
7	As has been discussed in previous meetings and CIG webinars, the 'outraged' voice of people living with NCDs is not strong enough. Perhaps if all diseases and health conditions were included, which might gain more media attention.	Jan 3, 2012 7:18 AM
8	Define roles clearly from the onset. Have a proposed budget and key activities that all parties can agree on. Make sure that national alliances have a responsibility to report back to the global alliance for coordination purposes.	Jan 3, 2012 7:04 AM
9	Leave more time for comment on all issues	Jan 3, 2012 3:04 AM
10	It is interesting that surveymonkey is being used to canvass opinion at this stage, rather than prior to the UN HLM - there was not much opportunity for discussion before the HLM. I appreciate that it is difficult to discuss, rather than simply to inform, when a large group of stakeholders is involved, but it wasn't always clear to us in the CIG how decisions were made within the Alliance. (Having said that, keep up the good work!)	Jan 3, 2012 2:32 AM
11	Have to be careful with Private sector. Private sector can support strong NCD policies but should never be allowed to dictate and influence what are political decisions	Jan 3, 2012 2:06 AM
12	Doing a good job already - fantastic effort. The benchmark in my view is the National Heart Forum comms - though they've overly complicated it of late.	Jan 2, 2012 3:34 PM
13	The NCDA is an informal alliance. It has no statutory registration. It is unclear in terms of governance where its responsibility and accountability lies.	Jan 2, 2012 1:00 PM

Page 3, Q20. Has the NCDA adequately consulted the following stakeholders in forming its priorities and positions?

14	They should try to involve more the local medias for delivering the message to the communities.	Jan 2, 2012 10:22 AM
15	The NCD Alliance was very good at interpreting and disseminating important core information and resources. To be more effective the information needs to be accompanied by clear lobbying instructions and personalized briefings when asking individuals to go beyond creating awareness and sending out templates. NCD Alliance should work with major, and all, chronic disease areas, to produce standardized position papers on the issues they are facing. Umbrella organizations should circulate their position statements to member societies, or individual members, with adequate time for input and comments, to increase buy-in of, and participation in, what is being said by the NCD Alliance.	Jan 2, 2012 9:10 AM
16	In the case of obesity we need a serious re-think on strategy. Ditto on tobacco/nicotine. The ideology of NGOs is more anti-business than pro-health or pro-consumer. Sensible policies would not allow consumers to be misled on issues of relative risk nor ignore the science on dependency. This should be a pragmatic effort such as auto safety, food safety, building standards, etc. rather than have such strong indications of a moral imperative. We should be saving lives rather than imposing personal views on others.	Jan 2, 2012 8:23 AM
17	not sure how the private sector has been consulted but we need to ensure that a distinction is made between policy setting which should be independent of commercial interests and implementation where the private sector has a useful role	Dec 28, 2011 7:18 AM
18	It is necessary to form an alliance in every country to take further actions.	Dec 26, 2011 11:16 PM
19	Too close to the private sector, that could undermine the credibility of the NCDA. NGOs were consulted, but the process for developing strategy and forming positions was not clear, was not always transparent and was dominated by a small steering group. If it is to be the "voice of civil society", this process has to change and truly engage others in this process.	Dec 22, 2011 11:12 AM
20	Survey does not offer "don't know" or "too much"	Dec 20, 2011 8:46 AM
21	e-mail and website, conferences and workshops	Dec 20, 2011 8:27 AM
22	Quite honestly, just the way this question is framed is an indication of the problem. The answer is that NCDA didn't adequately consult anyone outside of the steering committee (we were not a member), despite our repeated efforts to get our thoughts addressed and added to the collective effort. The answer is that NCDA did a fine job of "informing" us of "decisions" that were made entirely without our input. However, if that is the criterion then this organization is doing us less of a service than it really should/could. NCDA is not an "inclusive" organization. It provides information readily and in a timely manner, but it does not consult with the CIG or provide a forum for discussion by any organization outside of the steering committee.	Dec 20, 2011 8:23 AM
23	The consultation process was not done in an integrated way and it was not always clear how and who had provided input to documents. Also it always seemed that when feedback was asked for it was too late in the process for this to be fully	Dec 20, 2011 7:49 AM

Page 3, Q20. Has the NCDA adequately consulted the following stakeholders in forming its priorities and positions?

	integrated.	
24	WE NEED THE NCDA TO BE MORE RESEARCH ORIENTED, TO COME UP WITH EVIDENCE FOR ADVOCACY WORK.	Dec 20, 2011 7:11 AM
25	I am aware of the challenge to involve stakeholders, as meetings or documents are often announced last minute so there is no time for a proper process	Dec 20, 2011 3:58 AM
26	The NCDA was very conscientious in recognizing the importance of consultations with each of these groups, but it was essentially ad hoc. The challenge is to find a transparent and accountable structure for these consultations in the future.	Dec 20, 2011 2:51 AM
27	More advocacy work, campaign, policy advocacy and sharing with different stakeholders.	Dec 20, 2011 1:01 AM
28	I wouldn't be able to comment on the other stakeholder groups.	Dec 20, 2011 12:40 AM
29	That would be guess-work for the last three interest groups. We are an NGO and not familiar with the consultation process towards the private sector, academia and people living with NCDs	Dec 19, 2011 11:44 PM
30	Identify country coordinators and support them	Dec 19, 2011 9:41 PM
31	The NCD Alliance cannot simply provide materials and templates and assume NGOs have followed through. It needs to follow up with them to ensure they did the task, hold their hands, answer their specific questions.	Dec 19, 2011 11:11 AM

Page 4, Q24. What follow up actions has your government taken to progress the commitments made in the UN political declaration?

1	None that I am aware of.	Jan 6, 2012 12:28 PM
2	Committed to doing what that had already planned to do.	Jan 6, 2012 9:40 AM
3	none that I know of.	Jan 6, 2012 6:24 AM
4	Big much but Australia has been focussed on plain packaging in recent months- a major initiative	Jan 4, 2012 6:46 PM
5	NA as we work globally.	Jan 4, 2012 8:57 AM
6	N/A as we are an international organisation.	Jan 4, 2012 3:54 AM
7	NCD Division established in MoH Greater funding for NCD Diabetes - NDP is underway	Jan 3, 2012 11:32 PM
8	excellent work on tobacco - alot of work to do in other areas	Jan 3, 2012 7:29 PM
9	am not sure if actions are related to UN declaration	Jan 3, 2012 3:54 PM
10	nothing	Jan 3, 2012 2:40 PM
11	Information not public	Jan 3, 2012 12:07 PM
12	I am not aware of this.	Jan 3, 2012 7:19 AM
13	The PD will dictate the direction and focus for our organization's global advocacy work.	Jan 3, 2012 7:05 AM
14	dont know yet	Jan 3, 2012 4:28 AM
15	platform for NCD and curretnly important in TC strategy discussions and MOH is asking us directly our position that they value	Jan 3, 2012 2:08 AM
16	very less	Jan 3, 2012 1:45 AM
17	e g increased tobacco taxes from 2012	Jan 3, 2012 1:05 AM
18	non	Jan 3, 2012 12:01 AM
19	Additional funding for WHO NCDs Additional funding for FCTC Renewal of an NCD program in South Pacifi (A\$24m)	Jan 2, 2012 3:35 PM

Page 4, Q24. What follow up actions has your government taken to progress the commitments made in the UN political declaration?

20	None	Jan 2, 2012 1:00 PM
21	no actions	Jan 2, 2012 11:27 AM
22	Don't know	Jan 2, 2012 10:25 AM
23	As a European organization, the EU has committed to action and we were instrumental in getting oncology societies participating in the 2011 ASIAN Oncology Forum to commit to action in their region	Jan 2, 2012 9:10 AM
24	None, as far as I can tell. Canada has been a roadblock with the current Conservative government.	Jan 2, 2012 8:46 AM
25	Increased awareness	Jan 2, 2012 8:27 AM
26	None that are more than PR, and not even much of that.	Jan 2, 2012 8:24 AM
27	Government accepted all NCD global priorities through National Health Strategy, but still there is needed strong efforts to develop action plan and find governmental sources for financing appropriate priorities	Jan 2, 2012 8:10 AM
28	Up to now, mainly in viewing 4x4 as combined entity	Dec 30, 2011 9:35 PM
29	it didnt really make any new ones but the development department is more aware of the impact of NCDs than before	Dec 28, 2011 7:18 AM
30	unknown	Dec 27, 2011 10:26 PM
31	The country WHO has taken steps to address the above	Dec 26, 2011 11:18 PM
32	None	Dec 26, 2011 2:35 PM
33	Nothing specific that I know of	Dec 22, 2011 3:57 PM
34	Still no clear commitments, but raised awareness at governmental level	Dec 22, 2011 11:13 AM
35	None	Dec 22, 2011 2:17 AM
36	absolutely none	Dec 20, 2011 4:38 PM
37	The government has developed and implemented a ten-year national strategies for NCD, called Thailand Healthy Life Style.	Dec 20, 2011 12:16 PM

Page 4, Q24. What follow up actions has your government taken to progress the commitments made in the UN political declaration?

38	No substancial steps to my knowledge. My sense is that it will lead to some innocuous, effective busy-work by bureacrats and political spin, however, related internal health care ruminations about financial sustainability in an environment of unfavourable dependency ratios and ageing populations may make prevention measures more attractive.	Dec 20, 2011 8:50 AM
39	none	Dec 20, 2011 8:28 AM
40	The best example I am aware of is the creation of the Pink Ribbon Red Ribbon initiative, to bring private sector money into PEPFAR to do breast cancer and cervical cancer prevention work.	Dec 20, 2011 8:24 AM
41	NOTHING HAS BEEN DONE YET, WE HAVE A NEW GOVERNMENT WHICH WAS USHERED INTO THE OFFICE JUST AFTER THE SUMMIT.	Dec 20, 2011 7:14 AM
42	None as far as I can tell.	Dec 20, 2011 6:03 AM
43	Not working nationally	Dec 20, 2011 3:58 AM
44	Nothing	Dec 20, 2011 1:02 AM
45	None.	Dec 20, 2011 12:56 AM
46	Continued to engage with stakeholder group regarding WHO/NCD policy processes. No evidence that Government policy has changed as a result to my knowledge.	Dec 20, 2011 12:42 AM
47	Nationally there has been an interpratation of national policies to see if we meet the standards suggested by the political declaration. On development policies the government encourage recipient countries to integrate NCDs in the health sector development. There is a program on vaccine for cervical cancer and on essential medicines	Dec 20, 2011 12:41 AM
48	Almost none, the majority of actions taken by the government were part of health policy regardless of the UN political declaration	Dec 20, 2011 12:29 AM
49	My government has always been committed to tobacco control and I think they are doing their level best to limit, if not eradicate the scourge og tobacco and its multiple consequences at the national level. However, their priorities with regards to global health and development doesn't seem to have changed noticeably. But it's good to know that they have been a driving force during the negotiations for the Political Declaration and especially for its tobacco contol component. A national tobacco control media campaign will be launched starting from January 3rd 2012.	Dec 19, 2011 11:53 PM
50	Though Bangladesh Prime Minister attended along with health minister, but the commitment is weak. Although Ministry of Health finalized a 5 year plan on NCD supported by WHO. So things are moving on and hope the initiatives will be more	Dec 19, 2011 11:06 PM

Page 4, Q24. What follow up actions has your government taken to progress the commitments made in the UN political declaration?

	effective now as they attended UN summit.	
51	None that I have heard of	Dec 19, 2011 9:42 PM
52	as far as am concern in Uganda,the government through ministry of health has no support for the NCDs. our starting organization i.e. Uganda NCD Alliance which started up last year and its funded by DANIDA has tried thelevel best to get support from the ministry but all in vain. its a benefit for the few individuals. we are even trying to do a advocay in the parliament by screening them so that we possibly can be identified by the parliamentarians. we hope through this something big can come out.	Dec 19, 2011 8:52 PM
53	I do not know what actions our government has taken. Since my organization does not lobby (the U.S. has strict rules), it would be helpful for the NCD Alliance to facilitate this discussion and connection in a non-lobbying context.	Dec 19, 2011 1:30 PM
54	none specific thus far	Dec 19, 2011 1:08 PM
55	none	Dec 19, 2011 12:42 PM
56	Brazil's government has created a National Plan to Reduce NCDs Mortality	Dec 19, 2011 11:08 AM
57	unsure	Dec 19, 2011 11:00 AM
58	Don't know	Dec 14, 2011 5:18 AM

Page 5, Q27. What other priorities do you think are important?

1	I would argue that supporting implementation of MOVE-IT and improved vital registration should be a medium priority as it would help highlight the problems of aging and adult mortality in developing countries (which strengthens the case for NCDs)	Jan 6, 2012 12:35 PM
2	Prevention projects, thinking out the role of private sector, structure of the NCDA,	Jan 6, 2012 9:43 AM
3	Country projects targeted to the formation and nurturing of ALLIANCES at the national and regional level	Jan 5, 2012 9:18 AM
4	The risk here is trying to do too much. It should focus on global and overarching. It is not an FCTC organization. It must speak to the need for upstream public health action on ALL common risk factors	Jan 4, 2012 6:52 PM
5	Supporting the establishment of national NGO alliances and working with them in national level advocacy with the President, Parliament, etc	Jan 4, 2012 9:03 AM
6	Campaign should focus more on economic causes of NCDs and on social inequalities.	Jan 4, 2012 9:02 AM
7	To increase the membership of the NCDA to other disease groups, while this must remain affordable for NGOs, who function on a small budget.	Jan 4, 2012 4:06 AM
8	Promotive preventive measures- population wide interventions e.g. healthy schools, neighbour hoods, advocacy on better governance and urban planning, nutrition policies aimed to reduction of sugar, salt and fat content in manufactured drinks and foods etc	Jan 3, 2012 11:36 PM
9	I am not sure what 'campaign plan for NCDs in the post 2015 development goals' means. Believe it is important to develop a campaign plan for continuing to insert NCDs into all development activities.	Jan 3, 2012 3:58 PM
10	Pain control and treatment	Jan 3, 2012 12:09 PM
11	The ones noted above are a good start. I would discourage the NCDA given its human/financial resources to stretch itself to then. We must be purposeful in what the priorities are, so other organizations can assume a lead on the other issues.	Jan 3, 2012 7:09 AM
12	I think that the language in which these issues are discussed is very important - this is important both for advocacy and for working with the private sector, which may be new to these issues. Working to establish new ways of working is essential, and I would like to see the Alliance taking a really active role in facilitating discussions in a way that fosters mutual trust. This may well not be not easy, given the seemingly differing views of the organisations that make up the Alliance, but it is an opportunity that mustn't be missed!	Jan 3, 2012 2:41 AM

Page 5, Q27. What other priorities do you think are important?

13	non	Jan 3, 2012 12:06 AM
14	Publication of league tables - anual scorebaord showing which nations are leading the pack, which need to do more and which need help to do more.	Jan 2, 2012 3:38 PM
15	To work with national registered NGOs to ensure that they take the lead in their countries and not the NCDA. Some national organisations actually feel disempowered and there is a perception that NCDA is undermining national NGOs and distorting the established priorities of these organisations as they undertake their campaigns.	Jan 2, 2012 1:09 PM
16	exploratory research evaluation	Jan 2, 2012 11:28 AM
17	NCD Alliance needs to keep the momentum going and show how they intend to achieve their goals. Opinions were voiced that UN HLM on NCDs was good political talk but it is not sure if there will be any resulting concrete achievements or deliverables. It is not easy for organizations to dedicate manpower hours to a project if political will at the highest levels is not fully committed or goal seem unachievable.	Jan 2, 2012 9:26 AM
18	Linkage of research to policy, particularly with respect to FCTC	Jan 2, 2012 8:47 AM
19	A key issue is getting civil society to better understand the problems and become more strategic and creative about solutions. For example, alcohol tax policy in most countries actually encourages excess drinking, discourages those who would otherwise drink in moderation and reduces overall revenue. Tobacco policy discourages use of far less hazardous forms of nicotine delivery, thus supporting continued market domination by cigarettes. Obesity policy advocacy fails to address the cross-subsidy of high caloric foods by low calorie alternatives because of a civil society antipathy to the entire category of 'junk food'.	Jan 2, 2012 8:33 AM

Page 5, Q27. What other priorities do you think are important?

41	Note that the areas above are marked Low Priority not because they are not important, but because I don't think NCDA is the right group to lead them.	Dec 19, 2011 3:07 PM
42	Query each civil society group as to what their goals would be in relation to the political declaration and beyond. Then facilitate planning to achieve targeted objectives/convene the groups with similar interests.	Dec 19, 2011 1:34 PM
43	Physical inactivity almost ignored, needs more specific attention, not just embedded within obesity	Dec 19, 2011 12:43 PM

Page 5, Q28. Please share any additional comments on other issues addressed or not addressed in the survey that you think are important for NCDA to consider in its review.

1	I think the NCDA is best positioned as an organization that brings together various stakeholders to help with advocacy. Thus, I think it's main activities should be conferences, webinars, and other activities that put people in the same space and then turns that toward pushing for government action. I don't think the NCDA is properly set-up for training, research, or field-work, vital though those are.	Jan 6, 2012 12:35 PM
2	Consider regional reps for fast interaction when needed and post these persons contact details on web	Jan 4, 2012 6:52 PM
3	Broaden the membership of the Alliance beyond "disease" interests. Develop a global "social mobilization" campaign around NCDs, utilizing traditional and new social media	Jan 4, 2012 9:03 AM
4	More democratic consultation with CIG members and better understanding of conflicts of interest.	Jan 4, 2012 9:02 AM
5	1. Increase disease groups and involve them differently than so far. 2. All the attention was given to the big 4, I think, resulting in the dis-engagement of other disease groups, which also have a high disease-burden and involve equally great personal suffering on the patient's side. This must respect-fully be taken into account in the future. 3. Could funding be made available for grants (e.g. to come to the UN Summit) or for workshops to attend (which address 'Advocacy and NCDs'-issues)? 4. WHO and their liaison staff need to be reminded of its huge responsibility with regard to the milestones, which need to be reached. The support from WHO needs to be there at the very highest level - not by paying lip-service, but by really taking on responsibility! Either the WHO takes on its full responsibility or they are honest enough to say that they are not able to. At the moment, they do neither, which cannot be accepted!	Jan 4, 2012 4:06 AM
6	media advocacy along the lines adopted by the HIV/Aids movement.	Jan 4, 2012 12:47 AM
7	NCDA has to be the major global driver given the lack of bilateral interest and lack of multilateral resources	Jan 3, 2012 7:31 PM
8	It was hard for us to join any of the CIG meetings because of the time difference. It seems it would have been more productive if the times varied to accomodate people in different regions of the world instead of sticking to the same time slot. Also messaging was always a bit complex and hard to pass on to our constituents without "interpreting" some of the commentary.	Jan 3, 2012 3:09 PM
9	Until the rights issue is addressed, the campaign will not have legs.	Jan 3, 2012 12:09 PM
10	The great actual and potential strength on the NCDA is its advocacy/lobbying capacity at the national and international level. It has to walk a fine line between having a collective voice and not muting the voices of its partners. The "secret" must be to find those points and areas of focus that resonate with its basic partners. It also must ensure that the national and regional NCD Alliances are genuinely embracing the partners and not carving out individual spaces for themselves. All alliances need energy to maintain them, but the survey does not address how NCDA will maintain that	Jan 3, 2012 7:54 AM

Page 5, Q28. Please share any additional comments on other issues addressed or not addressed in the survey that you think are important for NCDA to consider in its review.

	necessary energy.	
11	Transparency is critical in the next iteration of the Alliance so that all partners feel vested in its longterm stability as our campaign should be planned for the long haul.	Jan 3, 2012 7:09 AM
12	Its working relationship with the private sector: it needs to work!	Jan 3, 2012 2:41 AM
13	non	Jan 3, 2012 12:06 AM
14	Complete transparency regarding the financial basis of NCDA. Who is responsible for NCDA in law? Are staff employed and under which legal jurisdiction are there terms of reference governed? Is the NCDA properly insured as a legal entity? There is a growing perception that NCDA is usurping the legitimate role and responsibilities of national or trans national NGOs. There is a perceived lack of transparency and good governance.	Jan 2, 2012 1:09 PM
15	an emphasis on evaluation research is important	Jan 2, 2012 11:28 AM
16	NCD Alliance did fantastic job of bringing together for the first time organizations across disease specialties. This achievement should not be undervalued. However, many organizations became active only recently. Many were unaware there was a UN HLM on NCDs until we told them. Organizations need the support of a much stronger grassroots movement which has been lacking until now. despite the number of people suffering from chronic diseases. Train-the-trainer kits could be useful to activate people whose lives or loved ones could be positively influenced by coordinated global efforts. Media stories at the local level need to increase. Funds need to be identified to support NCD Alliance efforts and UN is expecting creativity to use existing resources more efficiently and across health sectors.	Jan 2, 2012 9:26 AM
17	New ideas generate news. Old, tried-and-failed policies do not. We need fresh ideas rather than just more junkets for people who would not even be in this field were it not for personal gain.	Jan 2, 2012 8:33 AM
18	Process has been quite medically focussed - yet the NCD high level meeting strongly highlighted how NCDs were heavily related to the social determinants of health. We have to start thinking with a broader social mindset than just a medical one.	Dec 29, 2011 7:37 AM
19	Role within the Civil society	Dec 26, 2011 11:21 PM
20	The involvement of pharmaceutical companies. This is a concern particularly if they are likely to get involved in policy development in countries.	Dec 26, 2011 2:37 PM
21	It needs to review its governance structure.	Dec 22, 2011 11:18 AM

Page 5, Q28. Please share any additional comments on other issues addressed or not addressed in the survey that you think are important for NCDA to consider in its review.

22	Proposing conflict of interest standards to WHO and UN Sec. Gen. with the Conflict of Interest Coalition (after addressing internal financial conflicts of interest)	Dec 20, 2011 8:57 AM
23	Consider strongly ways of making the NCDA more representative, particularly in its decision making. There is no way that the organization can pretend to represent the totality of the NCD cause when it is dominated by just four disease-based organizations.	Dec 20, 2011 8:28 AM
24	NIL	Dec 20, 2011 7:19 AM
25	How an organizations get designated as an NCDA "partner" or similar status needs to be made more transparent. If NCDA explicitly outlined what it was looking for (\$\$, staff, other), organizations would respond. Right now it gives a slight impression of a mysterious club (beyond the founding federations).	Dec 20, 2011 6:10 AM
26	What kind of membership structure should the NCDA have? Should it seek to broaden its membership to include other stakeholders? Should the main stakeholder categories be more diversified?	Dec 20, 2011 2:58 AM
27	training on how to mobilize people via social media	Dec 20, 2011 1:00 AM
28	There is a substantial hazard in allowing the private sector, in food, alcohol, and pharmaceuticals, a say in agenda setting. The needs of people with, and at risk of, NCDs in low income settings are vulnerable to the activities of these industries.	Dec 20, 2011 12:58 AM
29	It could be a good idea to make a survey or mapping of CS in developing world and an analyses of how CS can be strengthened	Dec 20, 2011 12:50 AM
30	at least an yearly event can organize to share experience and plan for activists	Dec 19, 2011 11:10 PM
31	Keep up the good job and involve more advocates particularly those from low and middle income countries	Dec 19, 2011 9:49 PM
32	Thank you for this Alliance. I hope it continues through 2014 and brings us together to deliver civil society impact for the UN/WHO.	Dec 19, 2011 1:34 PM
33	Continue linkages between groups with common interests i,e, cervical cancer prevention and control	Dec 19, 2011 12:12 PM
34	NCDA Alliance did a good job on certain aspects of what was needed, but it was not brilliant at it. Primarily it lacked bold leadership and did not assume the mandate it was given by default. It failed to use the UN summit to mobilize the world and failed to pull all NGOs along with it to drum up more noise. It was also not clear in its asks of governments and the	Dec 19, 2011 11:15 AM

Page 5, Q28. Please share any additional comments on other issues addressed or not addressed in the survey that you think are important for NCDA to consider in its review.

UN.

Page 6, Q29. How can the NCDA facilitate increased communication and collaboration among the 2000 plus organizations within its network?

1	One simple thing: please stop being so euro-centric with the locations and scheduling of events! Stakeholders live in the Americas and Asia/Pacific as well and European times and locations are not conducive for participation.	Jan 6, 2012 12:36 PM
2	Strong Communications support.	Jan 6, 2012 9:44 AM
3	Set up a list-serv for quick email communications to/from network members	Jan 6, 2012 8:12 AM
4	By clarifying the relationship between the NCDA, the members of thier own federations, and with the wider network.	Jan 6, 2012 6:30 AM
5	The NCDA spoke at its members, not with its members, particularly the smaller members. NCDA needs to make clear why it is important for organizations to participate with NCDA - simply being a part of this big overarching network is not enough. There needs to be tangible, useful reasons to encourage collaboration, and the NCDA was much more focused upward (towards the UN) and the added value for small organizations was almost invisible.	Jan 5, 2012 11:37 AM
6	I think that the effective and strategic use of emails and social media is needed to complement the website. NCDA should become the honest broker for formation of collaborative projects among members.	Jan 5, 2012 9:21 AM
7	Listen more	Jan 5, 2012 6:13 AM
8	See comment about regional reps and possible 'chapters'	Jan 4, 2012 6:54 PM
9	keep doing what you are doing	Jan 4, 2012 9:03 AM
10	As mentioned beforehand: Via more frequent emails, albeit that they might be short at times, and by continuing the CIG calls, which have been excellent. They should continue on a monthly basis, even if there is little to report in some months. These calls were very valuable to us.	Jan 4, 2012 4:14 AM
11	Via email, triennial conferences, publications, twitter, facebook	Jan 3, 2012 11:38 PM
12	It needs to prioritise its work with and through the most powerful and major organisations within the network Use/stimulate the development of regional groupings	Jan 3, 2012 7:33 PM
13	find other networks or forums for sharing messaging besides conference calls, which may limit participation. Maybe a Facebook page that has news articles we could post on our own FB pages so we don't have to re-do messaging entirely?	Jan 3, 2012 3:13 PM
14	difficult!	Jan 3, 2012 2:41 PM
15	1. Ask each organization to present their sucessful experiences in Webinars. 2. Try to establish links between	Jan 3, 2012 7:14 AM

Page 6, Q29. How can the NCD facilitate increased communication and collaboration among the 2000 plus organizations within its network?

	organizations working in the same field (Group working on XX). 3. Make those groups the EXPERTS or ADVISORS for the specific topic in which they're working on.	
16	Identify key contacts for each regional alliance or have a nomination process for that person to be identified.	Jan 3, 2012 7:10 AM
17	Choose topics that garner the most interest and advocate firmly on these.	Jan 3, 2012 6:11 AM
18	by regularly interacting with them at country level	Jan 3, 2012 4:49 AM
19	A good question! The obvious answer is online forums, but if you are thinking of going down this route, might I suggest that you carefully survey a representative sample of your membership as to what, exactly, they would use the forums for. It can be expensive and time-consuming to establish such forums, and they will need careful management and facilitation once they are up and running, so ensuring that they are meeting a genuine need will be crucial.	Jan 3, 2012 2:44 AM
20	Do we need regional cooperation - can we align our regional groups like we have our global NGOs?	Jan 2, 2012 3:40 PM
21	Identify possibilities for joint work with national organisations. NCD should support where needed not override. Avoid mimicking corporate marketing practices. Be transparent and acknowledge where there are different points of view. Respect national organisations' priorities and their advocacy policy and practices.	Jan 2, 2012 1:17 PM
22	through email contacts and webinars	Jan 2, 2012 11:30 AM
23	Not an easy task. Break down organizations into categories, identify key players and contributors at needed levels with major focus at national level where decisions are made.	Jan 2, 2012 9:37 AM
24	proactively motivate local NGOs	Jan 2, 2012 8:28 AM
25	continue as you are - using social media and webinars is good. Look for forums outside of the NCD community - disability groups, education planners etc and look to intergrate into them with these lenses	Dec 29, 2011 7:39 AM
26	--	Dec 26, 2011 11:22 PM
27	Listen as much as you talk	Dec 20, 2011 4:40 PM
28	First, ID the type of involvement that the 2,000 want. Perhaps <10% want more than webinar particiaption. Maybe fewer would write letters, give speeches, travel, or do media interviews, etc. Some are probably happy to undertake national work, if asked. Reporting who/how many have done so (or are willing to) might help mobilize more support.	Dec 20, 2011 9:07 AM

Page 6, Q29. How can the NCDa facilitate increased communication and collaboration among the 2000 plus organizations within its network?

29	conferences and workshops	Dec 20, 2011 8:33 AM
30	This survey is a very good start. NCDa could start out with regional meetings or convenings. Not everything needs to be done globally at first. There could also be subgroups established for those interested in prevention (for instance), UN process, or access to essential medicines.	Dec 20, 2011 8:30 AM
31	Identify key working groups; truly have a collaborative process; take onboard comments from everyone and explain final versions of documents and why a certain approach has been chosen	Dec 20, 2011 7:51 AM
32	CONFERENCES AND MEETINGS	Dec 20, 2011 7:22 AM
33	continued short bulletins	Dec 20, 2011 5:44 AM
34	Openness is a top priority, and this is consistent with NCDa efforts in the past. Planning for the future may merit the development of a more structured network, but this should not result in a loss of openness.	Dec 20, 2011 3:02 AM
35	Interactive communication with its members and non-members alike	Dec 20, 2011 2:40 AM
36	Short and concise communications. Long emails are not helpful because no one has time to read them in detail. Keep it short and concise.	Dec 20, 2011 12:11 AM
37	The NCDa can take example from FCA where there is a larger all@fctc mailing list and a narrower lobbying list. By doing so, the alliance may get input from LMICs, exactly from where people suffer the most from NCDs. The current communication format does not seem to ensure their participation as the CIG webinars are a one-way communication. UNSPG calls are for the time being limited to organisations in HICs - mostly European and American	Dec 20, 2011 12:09 AM
38	highlight common interests and possible collaborations	Dec 19, 2011 11:18 PM
39	Keep them informed through regular emails	Dec 19, 2011 9:54 PM
40	Develop some focused working groups?	Dec 19, 2011 3:07 PM
41	You do it perfectly...not too much, not too little - and you're responsive to individual requests.	Dec 19, 2011 1:34 PM
42	support the work groups with some resources	Dec 19, 2011 12:50 PM
43	creation of sub-groups with common interest	Dec 19, 2011 12:13 PM

Page 6, Q29. How can the NCDA facilitate increased communication and collaboration among the 2000 plus organizations within its network?

44	Hold smaller regional calls and follow up with key NGOs like the Global health Council for better dissemination and follow up of regional groups.	Dec 19, 2011 11:16 AM
45	Share some tools and documents in portuguese.	Dec 19, 2011 11:10 AM
46	Be more collaborative. Some of NCD leadership has undermined its strength by being petty and territorial, losing out on key opportunities to deliver on its mission. Human resource decisions need to be made in a a manner that is supportive of overall mission (not disease specific priorities) and promote work as a collaborative alliance.	Dec 19, 2011 11:08 AM

Page 6, Q30. As a part of the NCDA review, we are conducting telephone interviews with selected stakeholders. We are especially interested in hearing from NCD advocates at national level. If you would like to participate in a telephone interview, please email kathy.cahill@live.com.

1	My phone number is + 598 94 416559	Jan 5, 2012 10:40 AM
2	I represent a global agenda for physical activity- which is the new kid on the block globally- happy to talk about how we need to mobilize action on this topic.	Jan 4, 2012 6:54 PM
3	We are an international NGO, but you are very welcome to contact us for a telephone interview. - Thank you for all your very hard work and enormous commitment at the NCDA - it is very much appreciated and not at all taken for granted! - For an interview by phone, contact Silke Collins-Tracey, Policy Manager at the International Osteoporosis Foundation, at scollins-tracey@iofbonehealth.org . With our thanks and best wishes for a sucessful and, again, very fruitful 2012.	Jan 4, 2012 4:14 AM
