## WHO NCDs Progress Monitor 2017

WHO NCDs Progress Monitor 2017

Idioma Inglés

WHO Noncommunicable Diseases Progress Monitor 2017, which charts actions by countries to set targets, implement policies to address four main shared and modifiable NCD risk factors (tobacco, unhealthy diet, physical inactivity and harmful use of alcohol) and build capacities to reduce and treat NCDs, shows that progress around the world has been uneven and insufficient.
