Annual Report 2013-2014

The NCD Alliance is pleased to present our Annual Report 2013-2014, capturing the extensive growth of the global NCD movement, national and regional NCD action, and the expansion of the NCD Alliance.

By delivering impact and results over the last five years, the NCD Alliance has established its reputation as a thought leader on NCD policy and practice, a convenor of civil society, a partner to governments and UN agencies, and an advocate for people at risk of or living with NCDs. We have unequivocally demonstrated the value of working across diseases and risk factors for a common cause.

We sincerely hope you enjoy this reflection of our collective efforts, and thank you for your support in every step of the process.

Annual Report 2012-2013

After the excitement of the 2011 UN High-level Meeting on NCDs, 2012-2013 has been a year consolidation for the NCD community, with a challenging timeline of highly political and technically complex consultations.

Armed with [a new Strategic Plan](#) [3], the NCD Alliance proved our value beyond the Summit. We mobilised our unique 2,000 strong network and worked collaboratively with UN agencies, governments, and partners to herald a new era of action and accountability for NCDs. And we are steering a clear course for the inclusion of NCDs in the future development agenda.
