Keen to be a part of ensuring accountability and momentum as global Universal Health Coverage (UHC) and noncommunicable disease (NCD) commitments are translated into national action as the world builds back better?

Join guest speakers to discuss global progress towards the integration of NCDs into UHC benefit packages. Be inspired by in-country stakeholders who share tried and tested best practice examples of effective integration of NCDs into health and financial protection packages from across low-, middle- and high-income contexts. Hear from people living with NCDs of the transformative, protective and sustainable impact such work is having on their day to day lives.
