
Advocacy toolkit on NCDs in post-2015 launched in French

The NCD Alliance is pleased to launch the French version of our new Advocacy Toolkit on NCDs in Post-2015 Development Agenda.

The toolkit is available for download as a navigable PDF [here](#) [1]

This publication equips advocates with the information to navigate the post-2015 processes; articulate the position of NCDs and health in the post-2015 framework and take effective action. By using this toolkit, also available in [English](#) [2] and [Spanish](#) [3], members of our network can engage in coordinated advocacy to influence post-2015 processes in these final critical months.

Particular attention is given to advocacy at the national and regional levels, to ensure NCD prevention and control is central to the post-2015 development agenda.

The NCD Alliance has also launched an Advocacy 2-pager on NCDs in Post-2015 Development Agenda. It provides advocates with a concise and eye-catching resource to be used in their communication efforts. It is also available in English, French and Spanish.
