
Check out our NCD programme at World Cancer Congress 2014

Non-communicable diseases (NCDs) will play an important part of the programme of the upcoming [2014 World Cancer Congress](#) [1], with a suite of plenaries, sessions and side events that are of relevance to the wider NCD community beyond cancer.

Our Programme includes the following sessions:

1-Health in the post-2015 development agenda: Investing in NCDs for a healthy future for all

2-Connect and discuss with NCD experts

3-A shared commitment: The need for a multisectoral response to NCDs

4-Strengthening the NCD civil society movement: Lessons learnt from local NCD alliances

5-Putting integration into practice: Leveraging existing health service delivery and financing for NCDs

6-Connect and discuss with NCD experts

7-Innovation for action on NCDs: How Data and Mobiles Can Help the Developing World

8-Promoting a patient-centred approach for NCDs: Solutions to engage people in the NCD response

In addition, NCD Alliance supporters are hosting the NCD Cafe, which offers eight interactive sessions discussions throughout the duration of the Congress.
