
Communications internship opportunity

The NCD Alliance (NCDA) is offering an internship opportunity to support the Communications Manager in our Geneva offices. This is an exciting opportunity to work in a respected civil society alliance on a priority global health issue.

The role is designed to provide additional support to the implementation of NCDA's communications strategy. The intern will play an integral part of the growing communication efforts by taking on important responsibilities to enhance NCDA's external communications operation.

Interested applicants should submit a CV and motivational letter by email to jmarquez@ncdalliance.org [1] marked 'Communications Intern' by 2 March. Shortlisted candidates will be contacted within one week of the closing date.
