## **Our Views, Our Voices Online Consultation Survey Extended to September 9th!**

The Our Views, Our Voices Online Consultation has already received responses from 552 people living with NCDs from all over the world. Each one has shared their opinions and experiences relating to issues ranging from treatment, care, and support, social justice, prevention, and meaningful involvement.

Given the value and richness of these responses, we are extending the deadline for responses from today to the 9th of September to allow more people to have their say!

The Online Consultation of People Living with NCDs, available in [English](#) [1], [French](#) [2], and [Spanish](#) [3], provides a way of making your mark on the [Global Advocacy Agenda of People Living with NCDs](#) [4]. The survey will take only a few minutes of your time, no matter where you are.

*The map above displays the countries represented by responses to the Our Views, Our Voices online consultation as of the 30<sup>th</sup> of August, 2017. Darker shades of orange indicate a higher number of responses from the country.*

**Post Date:** Thursday, 31 August, 2017
