WHA 68: NCD Alliance advocacy briefing and side events

Language English

The 68th World Health Assembly is approaching, taking place on 18-26 May in Geneva. Most WHA papers have now been published online and can be accessed here. Official discussions on NCDs are scheduled for Friday 22 and Saturday 23 May. The NCD Alliance has compiled an advocacy briefing [1] with key messaging on health and NCDs.

The NCD Alliance and our Federations will be hosting a wide range of side events, including a Civil Society Briefing on Sunday 17 May, a panel debate on health and NCDs in Post-2015 on Monday 18 May, and a high-level discussion in collaboration with ADI and WHF on an integrated approach to the "25 by 25" target on Tuesday 19 May.

More information on our side events, and an extensive calendar of other relevant side events can be found here [2].
