Accelerator Programme

Language English

The NCD Advocacy Institute's Accelerator Programme seeks to increase the capacity of established national NCD alliances to drive effective in-country NCD advocacy.
Through multiyear partnerships with selected well-established NCD alliances, NCDA offers grants, tailored technical assistance and capacity building, training opportunities, expert and peer support designed to boost strategic advocacy efforts.

The second phase of the Advocacy Institute has introduced two new Accelerator Programmes:

- In 2020, the NCDs and UHC Accelerator Programme was launched, aiming to increase the capacity of 11 established NCD alliances to drive effective in-country NCD and UHC advocacy in Egypt, Ethiopia, Ghana, India, Japan, Kenya, Mexico, Malaysia, Rwanda, Tanzania and Vietnam.
- In 2021, a new NCD Prevention Accelerator Programme was launched, supporting 4 established alliances in Ghana, India, Mexico and the Philippines to advocate for NCD prevention and selected NCD risk factors.

The Accelerator Programme aims to achieve:

- Advocacy successes and early policy wins, including raised visibility of NCDs, constructive relationships with policy makers, and incremental gains in policy development;
- NCD alliances with increased legitimacy and relevance, including increased advocacy capacity, involvement of non-health actors and grassroots mobilisation (including people living with NCDs and youth), and ability to quickly respond to opportunities/threats;
- NCD alliances that are knowledgeable of and actively involved in global and regional NCD policy processes;
- NCD alliances that are actively involved with the broader community of national and regional alliances.

The first phase of the Advocacy Institute Accelerator Programme ran from 2017 - 2019, with the aim of actively involving national NCD alliances in global advocacy efforts – including opportunities afforded by the 2018 UN High Level Meeting on NCDs - and showcase national action at regional and global fora. In this first phase, NCDA supported five well-established alliances in Brazil, Colombia, India, Mexico and South Africa. You can find out more about their work here.

Participating Accelerator NCD alliances
