Success Factors for NCDs **Pathways to Accelerate Progress**

The NCD Alliance invites you to a high-level event on the sidelines of the 70th World Health Assembly to explore common success factors and catalytic strategies for implementing NCD prevention policies and building sustainable health systems for NCDs.

Moderated by the Editor-in-Chief of The Lancet, **Dr Richard Horton**, ministerial panelists will present good practice spearheaded in their countries, followed by a discussion with representatives from multilateral institutions, NCD experts and civil society advocates.

The event will provide an opportunity to share experiences in overcoming obstacles and barriers, and illustrate successful approaches to move from commitment to action. Outcomes from the event will build momentum for the third UN High-level Meeting on NCDs in 2018.
