About the NCD Alliance

The NCD Alliance (NCDA) is a unique civil society network, dedicated to shaping a world in which everyone can live a healthy and productive life, free from the preventable suffering, stigma, disability and death caused by non-communicable diseases (NCDs). NCDA is a registered non-governmental organisation (NGO) based in Geneva, Switzerland, bringing together 300 members in more than 80 countries, including a network of 66 national and regional NCD alliances, to form a respected, united and credible global civil society movement.

Over the last decade, NCDA has established a track record and reputation as a global thought leader on NCD policy and practice, a convener and mobiliser of the global NCD civil society movement, a partner to governments and international agencies, and a leading advocate for the meaningful involvement of people living with NCDs. Much of this success and impact stems from NCDA's position as a global alliance and our ability to ground global advocacy in the reality of local experience through our members and network of national and regional NCD alliances across countries; our global reach via extensive relationships with governments, World Health Organization (WHO) and the United Nations (UN); and our collective technical knowledge across our membership on NCD policy and practice.
