

NCD Alliance Webinar

Thursday, 10 October 2019

Agenda

- Recap of the UN HLM on UHC and UNGA week
- Update on Regional Committee Meetings (RCMs)
- From the network: World Stroke Organisation
- Looking ahead: WHO Executive Board 146
- Global NCD Alliance Forum 2020

Speakers

- Chair: Nina Renshaw, Policy & Advocacy Director, NCD Alliance
- Priya Kanayson, Policy & Advocacy Manager
- Luis Encarnacion, Senior Capacity Development Officer
- Michael Brainin, President, World Stroke Organization
- Cristina Parsons Perez, Capacity Development Director

Recap of the UN High-Level Meeting on Universal Health Coverage

UN High-Level Meeting on Universal Health Coverage

- **UN HLM on UHC on Monday 23 September**
 - Political Declaration available on official HLM [website](#)
- **Recordings of all official sessions:**
 - [Opening and Plenary Segment 1](#)
 - [Plenary Segment 2](#)
 - [Multistakeholder Panel 1](#)
 - [Multistakeholder Panel 2](#)
- **CSEM Post-HLM [strategy session](#)**
- **Challenge: speaking slots for stakeholders**
- **All statements submitted by organisations available [here](#)**

Highlights from the HLM on UHC

Opening segment: Approval of the Political Declaration on UHC

- Member States were called upon to:
 - Strengthen their health systems
 - Invest in comprehensive primary healthcare
 - Bridge gaps in HS preparedness against health emergencies

Plenary Segment: Statements by Member States

- Statements from 26 Heads of State/Govt & other high-level representatives
 - Success and challenges with UHC were shared
 - MS requested financial and technical support

Panel 1: UHC as a driver of equity, inclusive development and prosperity for all

- Panelists discussed:
 - Social, economic, and environmental determinants of health
 - Importance of access to SRHR for women
 - Billions of people, including vulnerable populations, being “pushed behind” by lack of access to healthcare

Highlights from the HLM on UHC

Panel 2: Accelerating multi-sectoral and multi-stakeholder action and investments for achieving UHC

- Panellists emphasized the urgent need to:
 - Mobilise more resources
 - Increase the equity and efficiency of existing resources
 - Harmonize investments in health
 - Institutionalize multi-stakeholder action and sustained investment to achieve UHC by 2030
 - Panellists recommended increased domestic funding, whole-of-government response, and improved PPPs

Closing plenary: Summary of all sessions

- UHC is crucial for the achievement of all other SDGs
 - There is no one-size-fits-all solution to achieve UHC, but for all countries, comprehensive PHC must be the foundation
 - The achievement of UHC starts with political will

Other high-level events during UNGA

High-level political forum on sustainable development

Convened under the auspices of the General Assembly
24 and 25 September 2019

Item 6 of the provisional agenda*

Adoption of the political declaration of the high-level political forum on sustainable development

Draft resolution submitted by the President of the General Assembly

Political declaration of the high-level political forum on sustainable development convened under the auspices of the General Assembly

High-level Dialogue on Financing for Development

Mid-Term Review of the SAMOA Pathway
High Level Political Declaration

PREAMBLE

1. We, the Heads of State and Government, Ministers and High Representatives, gathered at the United Nations on 27 September 2019, to review the implementation of the small island developing States Accelerated Modalities of Action (SAMOA) Pathway, reaffirm our commitment to strengthening cooperation and support towards small island developing States in the context of sustainable development, in line with their national development strategies and priorities.
2. We reaffirm that the SAMOA Pathway¹ is a standalone, overarching framework setting out the sustainable priorities of small island developing states that builds on the Barbados Programme of Action (BPOA) and the Mauritius Strategy for Implementation (MSI). The SAMOA Pathway is consistent with the 2030 Agenda for Sustainable Development, including the Addis Ababa Action Agenda, and is in line with the Sendai Framework for Disaster Risk Reduction, the New Urban Agenda and the Paris Agreement, adopted under the UNFCCC².

Launch of the Global Action Plan for Healthy Lives and Well-being

1.  Primary health care;
2.  Sustainable financing for health;
3.  Community and civil society engagement;
4.  Determinants of health;
5.  Innovative programming in fragile and vulnerable settings and for disease outbreak responses;
6.  Research and development, innovation and access; and
7.  Data and digital health.

Publications launched during UNGA

Q&A

WHO Regional Committee Meetings

2019 WHO Regional Committee Meetings: Overview

AFRO 69th: 19-23 Aug., Brazzaville, CON - [link](#)

Accelerating response to NCDs after HLM on NCDs;
New Strategic Plan on Malnutrition (2019-2025);
Framework for essential services in UHC;
Progress report Reg. Framework on Climate Change;
Progress report on Regional Strategy on Cancer

SEARO 72nd: 2-6 Sept., New Delhi, IND - [link](#)

Colombo Declaration on NCD services at PHC level;
Accelerating elimination of cervical cancer;
Annual report on progress on UHC & health-rel SDGs;
Regional Plan of Action for WHO Global Strategy on
Health and Climate Change;

EURO 69th: 16-19 Sept., Copenhagen DEN - [link](#)

Children's and adolescents' health;
Lessons learned from Health 2020 implementation;
Technological innovation and the Astana Declaration

PAHO 71st: 30 Sept.-4 Oct., W. DC, USA - [link](#)

Approval Plan of Action on TFA elimination 2020-2025;
Final report Plan of Action Adolescent & Youth Health;
Report Plan of Action on Health Promotion and SDGs;
Information document on PHC and UHC

WPRO 70th: 7-11 Oct., Manila, PHIL - [link](#)

Tobacco control in the Western Pacific Region;
Protecting children from food marketing;
NCDs and mental health;
Climate change, environment and health

EMRO 66th: 14-17 Oct., Tehran, IRAN - [link](#)

Framework on mental health care;
Implementation of regional framework on cancer;
Accelerating response to NCDs after HLM on NCDs;
Report on health and climate change;
Report on Global strategy on digital health

57th PAHO Directing Council (D.C., 30 Sept - 4 Oct 2019)

Key issues discussed:

- **Approval Plan of Action on TFA elimination 2020-2025;**
- Final report Plan of Action Adolescent & Youth Health;
- Report Plan of Action on Health Promotion and SDGs;
- Information document on PHC and UHC

CLAS submitted a joint statement calling Member States to:

- Adopt the Plan of Action and its policy recommendations, considering their contexts and priorities;
- Enact regulations to eliminate TFAs from the food supply, including enforcement, monitoring and evaluation systems;
- Accompany TFA elimination with nutritional labelling, a policy now being adopted and discussed across the region;
- Ensure active involvement of CSO & academia in reg. process;
- Create awareness on negative health impacts, and health gains from elimination.

Relevant issues:

- Delegates from Mexico and Peru mentioning support of warning FOP labeling

Dr Beatriz Champagne, Coordinator of CLAS at PAHO meeting

Statement on behalf of NCDA, IAHF, WHF, Resolve to Save Lives, CLAS, Mexico Salud-Hable Coalition, ACT Health Promotion (Brazil), Healthy Caribbean Coalition, NCD Alliance-Uruguay, and the National Coalition for the Prevention of Childhood Obesity (Argentina).

Abstract

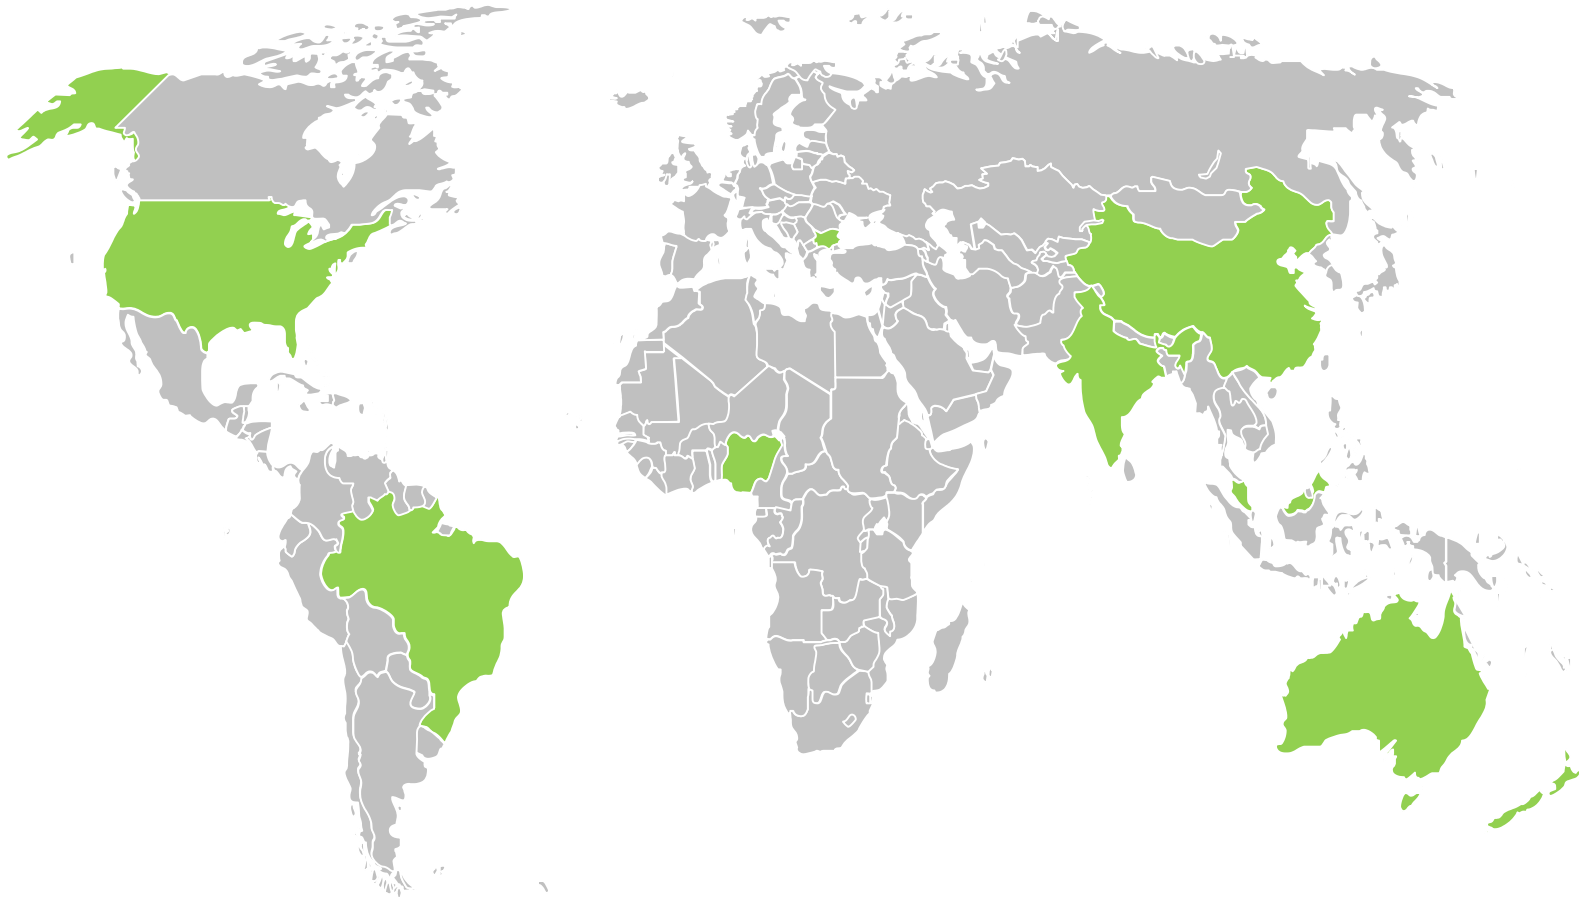

This review summarizes the potential for polypill therapies for stroke prevention. While a number of studies applying different approaches regarding polypill have been performed, none of them has had a focus on stroke as the main outcome. A combination pill containing drugs such as statins, diuretics, and other antihypertensives is currently available in various formats. Estimates focusing mostly on primary prevention show that using such a combination drug a reduction in the 5-year stroke incidence by 50% can be achieved – especially in low- and middle-income countries with a high prevalence of risk factors even among people at young ages. A combination of a large supporting population-wide program with a registry-based quality control is the most likely perspective and can be achieved within a reasonable time frame and potentially have significant influence in young stroke populations.

Keywords

Polypill, fixed-dose combination, stroke, primary prevention

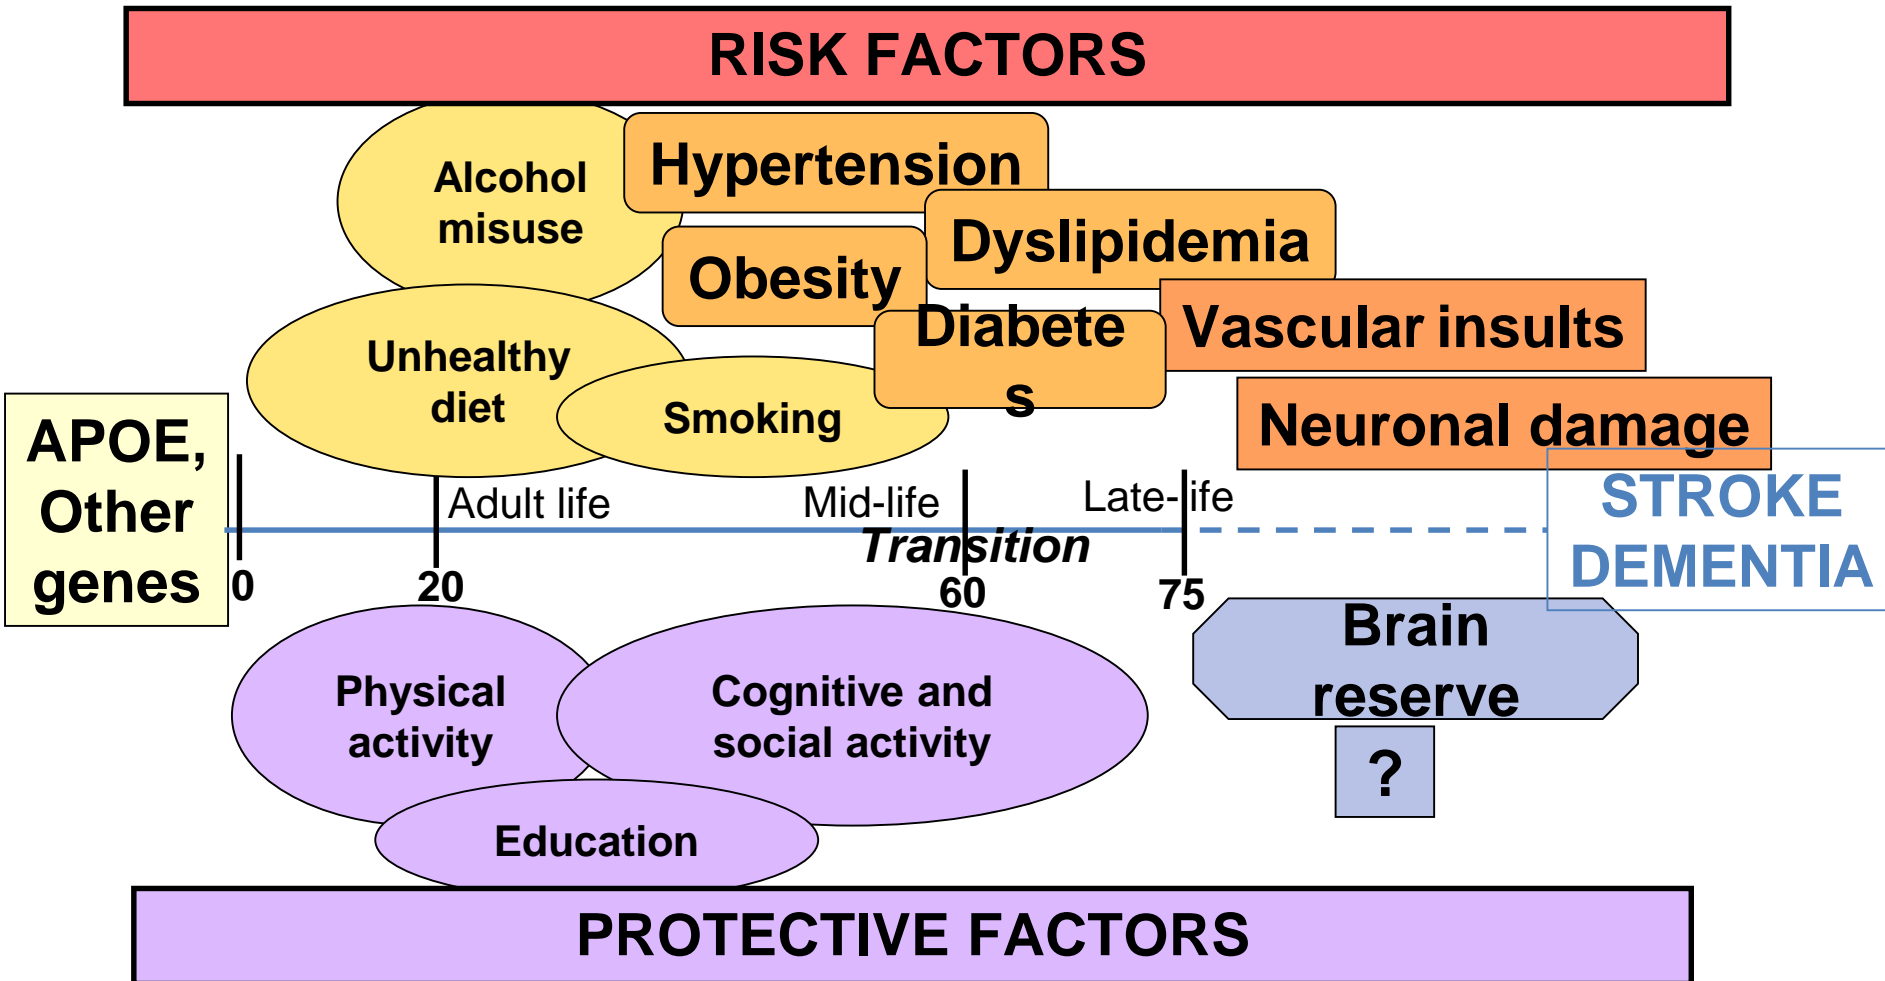

Received: 14 September 2017; accepted: 12 November 2017

Participating countries

20% study participants from developed countries (USA, Australia, NZ)
80% study participants from developing countries (China, India, Malaysia, Nigeria, Brazil)

Stroke and dementia: importance of life-long exposure to multiple factors

Q&A

Looking Ahead: 146th Executive Board

Draft provisional agenda

- **Pillar 1: 1 billion more people benefitting from UHC**
 - PHC
 - Follow up to political declaration of HLM3 on NCDs
 - Mental Health recommended interventions - Resolution
 - Global Strategy to Reduce Harmful Use of Alcohol - Resolution?
 - n.b. Air pollution recommended interventions postponed 2021
 - Global vaccine action plan
 - Elimination of cervical cancer - Resolution
 - Epilepsy
- **Pillar 3: 1 billion more people enjoying better health and wellbeing**
 - Decade of Healthy Ageing
 - Maternal, infant and young child nutrition
- **Pillar 4: More effective and efficient WHO**
 - Global strategy on digital health
 - Budget and finance
 - Governance reform: engagement with non-state actors

Q&A

Global NCD Alliance Forum 2020

Global NCD Alliance Forum 2020

Learn more on our website [HERE](#)

Global NCD Alliance Forum 2020

Theme: Bridging the gap

Sub-themes:

- Saving lives through transformative policies and solutions
- Building demand for action through transformative social movements and voices of change
- Enhancing accountability through transformative and inclusive governance

Global NCD Alliance Forum 2020

Registration to open mid-October:

- Full NCDA members to receive 2 invitations (no registration fee)
- Associate members to receive 1 invitation (no registration fee)

Call for proposals:

- Full members - workshop proposals
- Full and associate members - Community in action

Upcoming Global Health & NCDs relevant events

WHO Global Meeting on NCDs and Mental Health, Oman 9-12 December 2019

Prince Mahidol Award Conference, Bangkok 28 Jan - 2 Feb 2020
Accelerating Progress Towards UHC

WHO 146th Executive Board, Geneva 3-8 February 2020

3rd Global NCD Alliance Forum, Sharjah UAE 9-11 February 2020
