10:00 – 11:15: Monitoring Progress towards Universal Health Coverage

The first session will feature a briefing and Q&A with the World Health Organization and the World Bank on their new document, “Monitoring Progress towards Universal Health Coverage at Country and Global Levels: A Framework.” This framework sets out two time-bound targets for Universal Health Coverage to help countries chart progress, both in scaling up equitable access to essential health services, and in preventing poverty due to out-of-pocket payments for health.

11:30 – 13:00: An NGO Strategy Session on Post-2015 Health Advocacy

The second session will be an opportunity for health NGOs to take stock of the post-2015 health dialogues as the Open Working Group on Sustainable Development Goals wraps up its work. The objectives of this working session are to facilitate information-sharing, identify common priorities across issue areas and organizations, and align advocacy and communications strategies where possible.

Tuesday, 20 May 2014

10:00 – 13:00 CET

Centre de Conventions de Varembé
Salle C
9-11 rue de Varembé
Geneva
